KRAFT®

Take Control — Join The Revolution

Though they may look different, all mice are the same. The Kraft Tripletrack is the professional difference. It is the best input device for people looking for a faster way to use a computer. And because it mimics a mouse, it will work with most existing mouse software. And then some.

KRAFT® SYSTEMS INC.

450 W. California Ave.
Vista, CA 92083

Made in Taiwan

Kraft Systems is the leading manufacturer of computer joysticks, input devices and related computer peripherals. Kraft invented the IBM and Apple joystick and the related technology. We hold numerous patents which support this claim. With Kraft systems, you can be assured that you are purchasing products of the highest calibre. For all your computer needs . . . Kraft Systems.

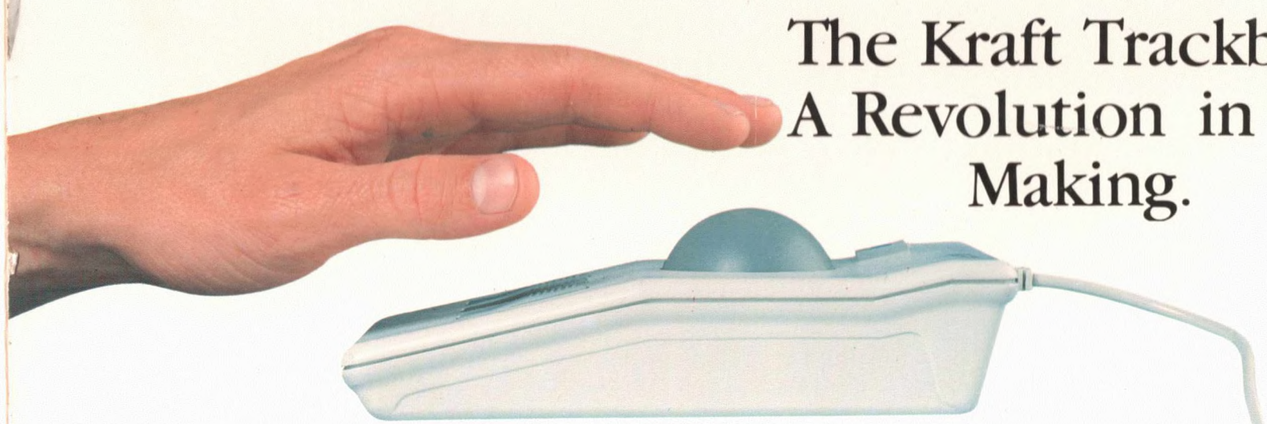
KRAFT® trackball

The Kraft Trackball: A Revolution in the Making.



Control and manage your computer. Touch the Kraft Tripletrack and feel its smooth ergonomic design and hi-tech response. Precisely the way to be in control.

Whether you are publishing a business report, tracking your stock portfolio, designing your dream office or creating a computer graphic, the Kraft Tripletrack gets you rolling efficiently. Even games play better with the Kraft Tripletrack.

Save Work Space

A mouse demands a lot of real estate in order to work properly. The Kraft Tripletrack fits right beside your keyboard, never asking for more of your precious desk space. It's downright efficient.

Switch Selectable For Your Computer — No Adapters Needed!

Fingertip control lets you do graphics, spreadsheets, desk top publishing and text editing at speeds unheard of from a mouse.

Evolution Technology Rolls On

In business, graphics and all mouse driven applications, the Kraft Tripletrack has the speed and accuracy necessary to roll over your cursor control problems. The Kraft Tripletrack delivers control every time.

- Built-in selectable drag button or automatic rapid fire button allows for more versatility and improved action.
- Exceptionally easy to install, the Kraft Tripletrack requires no computer knowledge or expertise.
- Opto-mechanical design and space age construction. Your Tripletrack will keep on rolling for years. Our five year limited warranty is backed by over 27 years of Kraft's experience and commitment to quality.
- Total one-handed control. It's real. The Kraft Tripletrack offers the option of FOOT PEDAL CONTROL. The foot pedal makes clicking and dragging fast and easy. Our ergonomically designed foot control frees your fingers to do what they do best — Move you ahead.
- Drag button improves dragging.

KRAFT PRODUCT REPAIR/ REPLACEMENT PLAN

Because of Kraft's commitment to quality, most of our customers never need to use our repair/replacement service. But if a Kraft product ever does prove defective, it will be repaired or replaced at no charge during the warranty period.

If you think you have a defective product, please:

1.) Collect all of the information you can about the problem. Make notes about any on-screen messages you get when the problem occurs.

2.) With your Trackball and User's Guide close at hand, call our Product Support staff at (619) 724-7146. In most cases, your question(s) can be answered right away.

3.) If your Trackball is diagnosed as defective, the Product Support representative will refer you to our Customer Service Department. A Customer representative will issue you a return materials authorization (RMA) number to be included on the Product Repair/Replacement Card.

4.) Package the Product Repair/Replacement Card, the defective product, a photocopy of your proof-of-purchase, and full details about the problem in a protected box and mail it directly to Kraft.

KRAFT TRACKBALL ACCESSORIES

PROGRAMMER'S MANUAL
$17.00
The Programmer's Manual for the Kraft Trackball contains the information necessary to incorporate a sophisticated trackball interface into your programs. It contains a complete description of the trackball driver and sample source code which enables you to integrate the Kraft Trackball into your applications.

FOOTPEDAL
$19.95
Ergonomically designed footpedal gives you total one-handed control. Plugs directly into your Kraft Trackball; no additional hardware required!

TELEPAINT-CGA
$49.95
TelePaint, the graphics program, combines a computer canvas with pop-up menus to allow the creation of electronic paintings on 8-1/2 by 11 inch pages. TelePaint requires an IBM PC or compatible computer, 256K of memory, DOS 2.0 or higher, a CGA, and your Kraft Trackball. Suggested retail price: $79.95.

SPLASH!-VGA
$59.95
Splash! turns your mouse into a paint brush, your monitor into a canvas, and supplies you with color and paint options that go beyond your wildest imagination. It comes with a palette of over 256,000 colors, 60 patterns and brush sizes, color fills, stamps, and spray cans. Splash! requires an IBM PC or compatible computer, 640K of memory, DOS 2.1 or higher, an MCGA or VGA, and your Kraft Trackball. Suggested retail price: $99.95.
